### **Profile:**

Orthopaedic Specialist / Whiplash Injury Expert/ MEDCO Accredited  
Medical Expert and Orthopaedic specialist providing independent and robust Medico Legal opinion for personal injury cases. Special Expertise in LVI - Low Velocity Impact Whiplash

Completed Graduate Programme in Whiplash Injury Traumatology & Biomechanics - August 2018

This is the first and only multi-module program devoted to the subjects of whiplash and brain injury traumatology.

Dr. Arthur C. Croft, the director and senior scientist at the Spine Research Institute of San Diego, has developed a science-based training program designed to provide treating physicians (DC, DO, and MD) with the critical tools they need to successfully manage victims of motor vehicle trauma in order to achieve optimal clinical outcomes. (More than 1900 scientific papers are referenced during the first two Modules alone.) Because a portion of these cases are litigated, it is also necessary to develop the requisite skills for forensic presentation so that physicians can present factual and objective information about these often very complex issues to other professionals and to lay persons in a cogent and understandable format.

### **Medico-legal Training & Work Experience**

MedCo Mandatory Accredited Training – March 2016

I have successfully completed the Bond Solon Expert Witness courses in (*Report Writing, Court Room Skills, Cross Examination, Law & Procedure*)  
Premex Training Courses in the Medico-Legal updates.

Since 2001, I have prepared over 10000 personal injury reports. Currently I undertake approximately, 1000 instructions per annum. I regularly attend various courses/seminars/conferences in Orthopaedic Surgery. I have regularly participated in group discussions and meetings at local medical practitioners in relation to these injuries.

### **Professional Membership: British Orthopaedic Association**

The BOA is the professional association for orthopaedic and trauma surgeons in the United Kingdom and those abroad who have had orthopaedic training in the UK or who show a continuing interest in the affairs of the Association
