### EDUCATION AND QUALIFICATIONS

EDUCATION: Bradford Grammar School 1972-1979.

UNIVERSITY: Fitzwilliam College,

University of Cambridge.

CLINICAL SCHOOL: Addenbrookes Hospital, Cambridge.

QUALIFICATIONS: B.A.Hons (Cantab.)  
 M.B. B.Ch. 1985  
 Part I F.F.A. June 1987  
 Part II F.F.A. June 1988  
 Part III FC Anaes June 1990  
 CCST July 1994 (certificate of specialist training in anaesthesia and pain management)  
 Fellow of the Faculty of Pain Medicine of the Royal College of Anaesthetists 2007 (FFPMRCA)

**PRESENT APPOINTMENT:      Consultant Anaesthetist and Pain Specialist**  
 Countess of Chester NHS Trust (started 1/04/95).

I have a specific interest in all aspects of adult pain relief and/or rehabilitation from painful conditions. I cover a population of approximately 300,000 in the NHS and also engage in private practice and medicolegal work at the Grosvenor Nuffield Hospital Chester, Spire Cheshire Warrington and Chester Wellness Centre. I have been engaged in medicolegal work related to pain management since 1996 and have developed a specialist interest in this over the past 2 years. I have attended a number of lectures related to the subject at The British Pain Society national meetings and locally. I attended 3 expert witness courses in 2011 and one in 2012 and 2013. I have written many reports usually for claimants in personal injury cases but also defendants and have also written reports costing individual treatment programs usually on behalf of claimants with conditions involving pain and have delivered such treatment programs. I am also developing an interest in clinical negligence and have taken instructions on such cases. *I realise that clinical work often makes it difficult to deliver timely medico-legal reports and I have therefore curtailed a considerable amount of private clinical work in order to pursue my medico-legal work more effectively with effect from April 2013.*

I regularly attend important national and local meetings related to pain management and have talked at a national pain symposium in 1997, 2007, 2009 and given numerous lectures to GPs, nurses and trainees. I am continuously involved in training, am a member of the Merseyside Pain Training Committee and involved in training of GPs, nurses and patients. I have given numerous lectures or talks on the subject with excellent feedback.

In recent years I have also been traveling to major international conferences and courses on pain management including the World Pain Congress Montreal September 2010. Therefore I have kept myself on top of all recent developments. I received my initial training in pain on the Manchester training rotation mostly at the Hope Hospital Salford.

At the same time as all this I continue with the usual "bread and butter" service i.e. medical management of all varieties of pain (where appropriate) in the NHS. This includes local anaesthetic blocks, epidurals (cervical, thoracic and lumbar), facet joint injections, sympathectomies, stellate ganglion blocks and radiofrequency treatments.

Although the above are my main interests I have extensive experience of all aspects of DGH anaesthesia and do regular on calls as well as 4 sessions a week in theatre for the NHS coupled with at least 2 extra private sessions a week on average. I particularly specialise in regional anaesthesia and local blocks but am at home with anaesthesia for any operation likely to be encountered in a DGH. I have curtailed the anaesthetic private work in order to more effectively pursue medico-legal work and will shortly be a full time pain management specialist with no anaesthesia component.

**PREVIOUS APPOINTMENTS: House Physician,**

Addenbrookes Hospital, Cambridge.  
February 1986 to August 1986.

**House Surgeon,**

York District General Hospital.  
August 1986 to February 1987.

**Senior House Officer,**

**Anaesthetics,**

Withington Hospital,  
South Manchester.  
February 1987 to August 1988.

**Locum S.H.O. Anaesthetic posts,**

August 1988 to December 1988.

**Locum Registrar Anaesthetics,**

Manchester Royal Infirmary.  
December 1988 to February 1989.

**Senior House Officer,**

**General Medical Rotation,**

Bury General Hospital.  
Dr.M.J.Goodman, Dr.Benaim.  
February 1989 to August 1989.

**Registrar Anaesthetics,**

Manchester Royal Infirmary.  
August 1989 to August 1991.  
Royal Manchester Children's Hospital.  
August 1991 to October 1991.

**Senior Registrar Anaesthetics,**

North West Regional Rotation  
Commenced October 1991.

**Hope Hospital** Oct 1991 to March 1992.

**Booth Hall Hospital** March 1992 to June 1992.

**St. Mary's Hospital** June 1992 to Aug 1992.

**North Manchester General** Aug 1992 to Feb 1993.

**Manchester Royal Infirmary** Feb 1993 to Sept 1993.

**University Hospital of South Manchester** Sept 1993 to March 1994

**Manchester Royal Infirmary** March 1994 to July 1994

**Wythenshawe Hospital** July 1994 to March 1995

**Chronic Pain:** Hope Hospital training module. Practical training in chronic pain included clinic and theatre sessions. I also received training at Manchester Royal Infirmary and North Manchester General.

## TEACHING AND PRESENTATIONS

### General Teaching

- Departmental meetings and journal clubs.
- Cardiopulmonary resuscitation training for medical students and junior hospital staff.
- Teaching of trainee operating department assistants, medical students, junior doctors, student nurses and paramedics.
- Nurses on the ENB national course.
- Supervision of trainees of all levels.
- Anaesthetists preparing for all parts of the fellowship examination.
- **Many teaching sessions on all aspects of pain**

### Lectures and Presentations

I have given formal lectures or demonstrations on the following courses:

- North West Regional Obstetric Anaesthesia course for the part III FC Anaes.1990.
- North West Regional Obstetric Anaesthesia course for the part III FC Anaes.1991.
- North West Computing for Anaesthetists UHSM 1992: Co-organiser and lecturer.
- Association of Paediatric Anaesthetists Annual Scientific Meeting, Belfast March 1993: "Complications in recovery following use of the LMA in children".
- Part III refresher course April 1993
- North West Computing for Anaesthetists UHSM 1993: Chief organiser and lecturer. I helped design and administered all aspects of this course.
- Intensive Care Society of Ireland and Intensive Care Society Joint Scientific Meeting, Dublin, April 1994: "Initial Oxygen Transport Patterns in Severe Shock".
- Anaesthetic Research Society: Aberdeen, July 1994: "Arterial oxygen saturation during induction of anaesthesia and laryngeal mask insertion in children":
- National Pain Symposium 1998 "Cancer Pain Problems"  
 Numerous lectures to GPs locally to present (April 2013)  
 Speaker at London Pain Conference for primary care November 2006  
 Speaker at National Fibromyalgia Conference September 2007 and 2009  
 Neuropathic pain GPs Holywell April 2010  
 "Pain in Practice" North Wales Neuropathic Pain Meeting February 2011  
 "Quick acting long lasting blocks for hand surgery", presentation at BSSH Autumn Scientific meeting London October 2011  
 Neuropathic Pain meeting May 2012 GPs Chester  
 Neuropathic Pain meeting July 2012 GPs Spire Hospital Cheshire  
 Neuropathic Pain Lecture January 2013 Regional Anaesthesia training course Whiston Hospital  
 Pain training May and June 2013 Countess of Chester NHS Trust

**COURSES ATTENDED:****Symposium on Successful Research in Anaesthesia:**

Walsgrave Hospital Coventry.

**Scientific Meeting of the Association of Anaesthetists:**

Manchester. (1990)

**Obstetric Anaesthetist's Association Annual Meeting:**

Manchester (1991)

**Intensive Care Study Day:**

Oldham (October 1992)

**Regional Anaesthesia Day Course:**

Oldham (October 1992)

**Society for Computing and Technology in Anaesthesia:**

Bristol (November 1993)

**Infusion Anaesthesia Trainer's Workshop:**

Alderley Park( November 1993)

**Intensive Care Society of Ireland and Intensive Care Society:**

Killiney Co. Dublin (April 1994)

**Anaesthetic Research Society:**

Aberdeen (July 1994).

**Society for Computing and Technology in Anaesthesia:**

Cardiff (November 1994).

**Pain and Nociception Group Annual Chronic Pain Meeting: (May 1995-2006)**

**World Pain Congress:** Vienna (August 1999)

**European Pain Congress:** Nice (September 2000)

**Transatlantic Pain Specialist Course:** New York (June 2001)

**Neuropathic Pain Course:** Cambridge (June 2000)

**Pan European Pain Specialists:** Copenhagen (June 2003)

**World Pain Institute:** Barcelona: 2004

**Pain Society Annual Meetings:** (April 1995-2012)

**APLS 2009 2010**

**World Pain Congress:** Montreal September 2010

**Medicolegal Expert Witness Courses:** Manchester March 2011

Leeds Whiplash Medicolegal conference May 2011

Cambridge Medicolegal conference September 2011

Cambridge medicolegal conference September 2012

Leeds Medicolegal Conference May 2013

**Administration:**

- **Lead clinician Pain service Countess of Chester NHS Trust (to april 2005)**
- **Association of Anaesthetists Link Man**
- **Critical incidents analysis Countess of Chester (from February 2006)**
- **Merseyside Pain Training Committee (Chester representative from jan 2006)**
- **Managing Director of "A Logan Pain Management Ltd" from May 2010**

**MEMBERSHIP OF LEARNED SOCIETIES:**

The Association of Anaesthetists of Great Britain and Ireland.

Fellow of the Royal College of Anaesthetists.

The British Medical Association.

Anaesthetic Research Society.

**The Pain Society**

**Fellow of the Faculty of Pain Medicine of the Royal College of Anaesthetists**

**North England Pain Society**
