**Nationality/ VISA status:** British

**General Medical Council :** Full Registration No. 4565848  
Specialist Registration for Paediatrics, 27.11.2006 (Through CESR)

**Membership :** Fellow of Royal College of Paediatrics & Child health  
Medical Defence Shield

## QUALIFICATIONS

**1987** MBBS Bihar University, India

**1989** MD (Paediatrics) Patna University, India

**1998** MRCP (UK) (Paediatrics)

**1999** MRCPCH (UK)

**2007** FRCPCH(UK)

**2010** PGCME (Keele University)

**2018** PGC Health Sciences( Health Services Management)

**ACADEMIC AFFILIATIONS:** Associate Professor, St George's University School of Medicine, Granada, 2011-2015

**ACHIEVEMENTS** Awarded with 7 discretionary award points (2002-2007) & 4 CEA (2008-2013) for providing exceptional contribution to NHS.

## CAREER OBJECTIVES

I am a paediatrician with special interest in medical education and paediatric uro-nephrology. My strengths are the long experience of clinical care to patients with acute/community paediatric problems, my academic strengths, and the management experience. At this stage of my career I look forward to contribute more towards the development of medical care for children in the UK, with a view to not only guide/mentor the future doctors serving children, but also to have a personal fulfilment.

## **Present Post:**

### **Consultant Paediatrician (Independent) Special Interest in Kidney/Bladder disorders**

**01/05/2018-onwards**

After working for NHS for over 2 decades, I have now moved my work towards independent private sector with a role of consultant paediatrician to meet my personal needs, and my current revalidation body is Spire Healthcare. I now only carry on with the outpatients care for children in the private sector providing my services to the major organisations from all over West Midlands including Virgin Private Healthcare, BMI Priory, Spire Healthcare and Summerfield Healthcare.

At this stage of my career I am keen to develop an interest in paediatric neurology to be able to serve this cohort and speed up the care working in liaison with the NHS services and Tertiary care centre.

## **Responsibilities:**

### General paediatrics

- Conduct outpatient clinics at various private healthcare sector in West Midlands
- I am also in a process to join as an Honorary Consultant' at Birmingham Children's hospital which will allow me to keep updating my knowledge/skills and keep me in line with ongoing changes in paediatric healthcare provision in the UK.
- I have participated in Vanguard trial with Modality triaging the GP referrals to secondary care with an aim to improve and facilitate a better healthcare.

### Medico-legal:

- I have had course with Bond Solon and I provide medico-legal work around general paediatric issues, since 2015.
- I provide medico-legal report around RTA and the conditions around such as Asthma, Chest Pain, Headache, Enuresis, pain abdomen, or any paediatric physical outpatient condition exacerbated/affected due to effects of the RTA or clinical negligence.
- I am a member of medico-legal society, Birmingham.

### Managerial/Leadership:

- I represent MAC at Spire Little Aston Hospital as 'Lead Paediatrician'
- I have just obtained a Post Graduate Certificate in Health Sciences (Health Services Management) from Warwick University.

### Academic:

- I am attached with Birmingham Medical School as 'Honorary Senior Lecturer, and involved with education and assessment for medical students.
- I provide regular teaching for GPs in West Midlands through providing educational sessions at local practices as well as large educational events.

**Consultant Paediatrician, South Staffordshire and Shropshire NHS Foundation Trust**  
**Special Interest in Incontinence/Kidney/Bladder disorders**

South Staffordshire & Shropshire NHS Trust provides services around specialist children's services including for mental health and learning disability. The trust covers a population of around 1.1 million from a geographical area of 2,200 square miles.

This post is mainly towards providing community services to children with neurodevelopmental/neurodisability disorders including associated physical health co-morbidities. A wide proportion of children with complex disorders need input around their physical health ie *chest conditions, Epilepsy/neurological issues, Bowel and bladder problems, eating disorders, Gastro-intestinal conditions, and end of life care.*

**Responsibilities:**

Having previous specialisation in **acute paediatrics** and having **special interest in Bladder/Renal conditions** I also offer special clinics for Secondary/complex Enuresis cases for both East and West of area of the Trust.

Outpatients:

- Conduct twice weekly clinics for children with neurodevelopmental/neuro-disability conditions, and their physical health co-morbidities.
- Conduct Child Developmental clinic once/month
- Conduct one clinic/month for special primary and high school supporting children with complex educational/SEN needs.
- Conduct Enuresis clinic once /month
- In negotiation with Queen's Hospital, Burton to provide special clinics for *children with Kidney/Bladder conditions.*

Safeguarding:

- Cover Safeguarding/child protection rota for 1:8 during 0900-17:00.

Managerial:

- Lead for Enuresis
- Lead for Physical Disorders

I have started pilot projects for the improvement of community services for Tamworth including

1. MDT meetings to discuss complex cases
2. Joint working with CAMHS and Child Psychiatry.
3. Regular '**sharpen the saw**' exercises in form of regular group caseload reviews, and team meetings.

Academic/Teaching:

- **Chair** monthly teaching afternoon for doctors/ staff.
- **Educational/clinical supervisor** for speciality doctors
- **Mentor** for regional ST4 trainees for West Midlands Deanery.

18/05/2015 -31/10/2016

**Consultant Paediatrician, special interest in paediatric nephro/urology, and Medical Education  
New Cross Hospital  
Royal Wolverhampton Hospital**

This post was a TUPE transfer arrangement from Mid-Staffordshire Trust. New Cross Hospital is a large district general hospital with regional tertiary facilities for cardiology and, neonatology. Paediatric unit contains a 24 bedded general paediatric unit, 4 bedded HDU, and 16 bedded paediatric assessment unit (PAU). It caters to a multi-ethnic population of around 1 million. The unit is staffed with 9 consultants, and 8 registrars/middle grade doctors. The sub-speciality provisions include Diabetes /Endocrinology, Respiratory, Rheumatology, Oncology and Paediatric nephron-urology. The turnover of paediatrics in PAU is about 60 patients/day. It also has a tertiary neonatal unit with intensive care facility at level 2.

*Outpatients:*

- Conduct 3-4 weekly general and mixed(Renal/Urology) paediatric clinics
- Attend community clinics.

*Inpatients:*

- Cover ward/PAU 1 day /week.
- Provide expert opinion for renal/urology patients

- Regional ST1 teaching co-ordinator for paediatric renal session.2009-2013
- Examiner Elect, RCPCH. 2012

**Consultant Paediatrician & Associate Professor,  
St George's University School of Medicine  
Special interest in Renal & Medical Education  
MID-STAFFORDSHIRE HOSPITALS NHS TRUST**

Mid Staffordshire trust includes Staffordshire Hospital and Cannock Chase Hospital. Staffordshire Hospital is a 500 bedded **Foundation Trust** modern hospital having 34 bedded paediatric unit and 8 cot level 1 neonatal unit. The unit is staffed by 5 consultants in acute paediatrics and 2 consultant community paediatricians, 8 middle grades and 7 house officers including foundation year doctors. I have initiated and set up a Renal/Urology medical services for the area which is unique. I have also contributed towards setting up several new guideline for management of urinary tract infection in children and created parent information leaflets such as UTI and Antenatal Hydronephrosis .I have create a networking for Enuresis services for Staffordshire. I am also the Neonatal Lead for the trust providing an effective leadership with lowest Neonatal Mortality rate in last 4 years.

**Responsibility:**

*Outpatients:*

- Conduct weekly New & Follow up General Paediatric clinic at Stafford site
- Conduct weekly New & Review General Paediatric clinic at Cannock site.
- Conduct twice monthly UTI/Urology clinic- includes 11 new and follow up patients with UTI, Renal/Urological problems.
- Conduct once monthly one-stop UTI clinic (along with Radiologist) – Includes patients of UTI/Renal/Urological disorders needing ultrasound.

*Inpatients:*

- 1:5 out of hours on call cover for weekdays and weekends.
- 1:5 hot week day cover for paediatric and neonatal inpatients.
- Provide expert opinion for renal/urological problems for patients belonging to other colleagues.

*Administration*

- **CQC** panel member
- **QA panel member** for the West Midlands Deanery
- **WMQRS Reviewer** Panel member
- **Neonatal Lead & Appraiser** for the trust.
- **Chair** monthly 'Perinatal Morbidity' and 'Perinatal Alert Register' meetings.
- Responsible for patient/clinical related administrations.

*Teaching:*

- **Education Lead** for 3<sup>rd</sup> year (SSC) Keele University Medical students.
- **Educational Supervisor** for GP trainees and Foundation year1 and 2 doctors
- **ST4 teaching co-ordinator** for the deanery, 2010-2012
- **Regional ST1 teaching co-ordinator** for paediatric renal session.2009-2013

- **Examiner Elect, RCPCH. 2012**

**Previous posts :  
01/01/05- 07.05.2007**

**Associate Specialist in Paediatrics** (*Special interest in Renal and Medical Education*),  
Sandwell General Hospital  
**Honorary Clinical Lecturer,** Birmingham University  
Medical School.

Consultants :

Dr H Grindulis	Dr A J Mayne	Dr Penny Broggio
Dr D Low	Dr R Jayatunga	Dr C Agwu
Dr M Wallis	Dr R Wasala	

Sandwell Hospital is a busy modern teaching hospital and part of Sandwell & West Birmingham Hospitals NHS trust. There are integrated paediatrics and community services serving for 500,000 people. Facilities include a 50 bedded paediatric unit and HDU, ITU and level 1 neonatal care with 14 cots including facility for short term ventilation. With delivery rate of 2500/year, unit is quite busy. Staffing include 8 consultants, 8 middle grades (7 NTN) and 8 SHOs.

This was a full time senior post. The responsibilities include providing consultant led clinical care of patients, child protection as well as clinical and junior management. Having renal interest, I was the **clinical lead for incontinence services** for area and I also provide opinion to department on renal problems.

## **Responsibilities**

### **Outpatients-**

- Conduct twice monthly Renal/UTI follow up clinic (**Independent**): The turnover of patients are 10-15/clinic which includes all paediatric UTI follow ups as well as other nephro-urological problems such as nephrotic/nephritic syndromes, congenital disorders etc which do not require scanning.
- Conduct 1; 3 weekly New Renal/UTI clinics (**Independent**): This clinic is run with a paediatric radiologist having facility of ultrasound scanning then and there. The turnover is 20-25 patients/clinic and includes new referrals and nephro-urological problems which require scanning at regular intervals.
- Twice weekly general paediatric clinics (**Along with Senior Consultant**): The turnover of patients are 15- 20 /clinic. These include separate new patients (AM) and follow up (PM) clinics.
- Weekly Urgent Review Clinic (**independent**): This clinic accommodates all urgent paediatric reviews and any new referrals. The average turnover of patients is 11.

## Responsibility ( cont)

### **Inpatients-**

- 1:5 hot week inpatient cover (**provide consultant cover**). Serving for a poor population with multi-ethnicity, the inpatient admission rate is very high and includes rare metabolic and neurological problems. Responsibility includes inpatient cover for paediatric as well as neonatal unit cover and child protection.
- Having special training in **cranial ultrasound at 'level 1 practitioner'**, I am also responsible for conducting all neonatal cranial ultrasounds at Sandwell Hospital which is recorded in Radiology data base.

### **Teaching:**

- As an **honorary Clinical Lecturer**, I was in- charge for Final year Obs & Gynae medical student's neonatal curriculum. I am also due to take few lectures for 2<sup>nd</sup> year students at Birmingham University Medical School.
- Being a **Personal Tutor**, I was heavily involved with the medical students at Medical School for academic and non-academic supports.
- Undertaking '**Certificate in Medical Education**' from Keele University, due to finish in 2010
- I was responsible to **supervise departmental audit** for F2 doctors

### **.Administration:**

- Being clinical lead for Incontinence services in Sandwell area, I was involved with the training and support to School Health nurses and GPs.
- I was responsible to organise weekly departmental teaching for middle grades.
- I organised 6 monthly and weekly rotas for middle grades till August this year.
- I was heavily involved with clinical administration related to patients care.
- I was responsible for organising audits and guidelines related to renal care and cranial ultrasound.

**02/09/01- 31/12/04**  
**(4years & 4 months)**

**Staff Grade in Paediatrics, Sandwell Hospital  
& Honorary Specialist Registrar, Paediatric Nephrology,  
Birmingham Children's Hospital**  
(1 session/week)

Consultants:

Dr H Grindulis	Dr A J Mayne	Dr H Narchi
Dr D Low	Dr R Jayatunga	Dr C Agwu
Dr M Wallis	Dr R Wasala
